Case 3:20-cv-06754-WHA Document 544-1 Filed 03/07/23 Page 4 of 4 HIGHLY CONFIDENTIAL - ATTORNEYS' EYES ONLY

1 for Play Music that that allows for a cloud 02:58:20	1 application to play media on a Cast device and 03:02:55
2 service I'm sorry that allows a remote	2 allows the Cast device to render that media. So it
3 playback end point to directly get the set of	3 has APIs across you know, across that that
4 songs, you know, one song, or whatever, at a time	4 whole stack that I talked about.
5 from that cloud end point for playback. So there 02:58:53	5 Q. And what does it mean to initiate a Cast 03:03:18
6 are different parts of an overall end-to-end stack.	6 session?
7 (Discussion off the stenographic record.)	7 A. When I think about initiating a Cast
8 Q. (By Mr. Grosby) I'd like to move to talk	8 session, I think about the media application
9 about what happens when a Cast session is	9 running on a device setting up a Cast media session
10 initiated. 02:59:33	10 on a on something like a Chromecast device 03:03:47
11 And in order to do that, I think it would	11 or any any Cast compatible device.
12 be it would be good to get an understanding	12 Q. Okay. Mr. Ghosh, if you can look at your
13 of the the terminology of of a Cast session.	13 Google Drive, I am dropping in what has been
What do you understand a sender to be?	14 previously marked as Exhibit 14.
15 A. When I think about it's been a long 02:59:49	15 THE DEPONENT: Okay. 03:04:16
16 time since I've thought about this.	16 Q. (By Mr. Grosby) Let me know when you
When I think about Cast, remote playback,	17 have that open.
18 I think of the sender as the device that the user	18 A. Okay. I have it open.
19 is interacting with browsing. In the case of 20 music, browsing their music or their media and 03:00:07	19 Q. So this is a demonstrative that's
	20 previously been created to just help us walk 03:04:24
21 issuing playback commands, pause commands, things	21 through an example of a Cast session.
22 like that.	22 A. Okay.
Q. Would you consider someone's mobile phone to be a sender?	23 Q. So so looking at screenshot 1, would
25 MS. BAILY: Object to form. 03:00:32	24 you agree that screenshot 1 shows a song being25 played in Google Play Music on a sender?03:04:43
Page 162	Page 16
1 THE DEPONENT: I would consider the media 03:00:33	1 MS. BAILY: Object to form. 03:04:48
2 application running on someone's mobile phone or	2 THE DEPONENT: Not it's a little bit
3 their Web browser, or whatever other device, to be	3 hard to tell. But I I think not quite. That's
4 the that they're using for controlling playback	4 not what I think I'm seeing.
5 to be the sender. 03:00:51	5 Q. (By Mr. Grosby) What do you think you're 03:05:02
6 Q. (By Mr. Grosby) And then what's a	6 seeing?
7 receiver?	7 A. Sorry. This is a little bit hard to
8 A. In a remote playback integration, I think	8 to tell because I'm not sure I have the full
9 of the receiver as the device that receives the	9 context. But from what I think I'm seeing, I think
10 commands from the sender and basically follows 03:01:08	10 I'm seeing music playing back locally on what looks 03:05:13
11 those commands and plays the the media that it's	11 like a phone.
12 been told to play.	12 Q. Right. So right.
Q. And then what's the difference between	So the phone would be the sender, right?
14 MRP and Cast?	MS. BAILY: Object to form.
15 A. I'm trying to remember the details. 03:01:47	15 THE DEPONENT: There were I'm sorry. 03:05:42
As I think we discussed before, MRP is a	16 Go ahead.
17 API on Android that allows allows, you know,	MS. BAILY: Sorry. Object to form.
18 media providers to publish a list of routes of	18 Go ahead.
19 destinations for remote media playback and allows	19 THE DEPONENT: If there were a Cast or
20 for some commands to be sent through that that's an 03:02:21	20 remote play like this icon this integration 03:05:55
21 Android API.	21 is more general than Cast. That icon is also used
22 And and Cast is when I think of	22 for Bluetooth playback, from what I remember. It
23 Cast, I think of the Cast API for use with	23 was used in Sonos remote playback.
24 Chromecast and and related devices that has	So if a user presses that icon and
25 libraries on multiple platforms and allows a media 03:02:47 Page 163	25 connects with a Chromecast or a Cast device, then 03:06:24 Page 10
